Description

Our world-famous Nanogen Hair Fibres are the perfect way for everyone to add volume and thickness to fine or thinning hair. Hair thickening fibres are easy to apply just like a styling product. Will bulk hair and conceal any areas of hair thinning or scalp show through in seconds. Available in 10 shades and suitable for sensitive scalps, our Fibres won't clog pores or affect the penetration of topical treatments such as Minoxidil.

Nanogen: The Science of Thicker Hair™

INSTANT & NATURAL RESULTS: Achieve instantly thicker and natural-looking hair. Style your hair without worrying about covering up sparse areas. Nanogen Hair Fibres have brought about millions of incredible transformations for our huge fan base of users. It is so easy to use and the results are incredible, our fibres are a virtually undetectable natural hair thickener.

WITH KINETIC™ TECHNOLOGY: Patented Kinetic™ technology optimises the hair thickening effect with enhanced binding pattern & strength.

-
1. Shake the Kinetic™ Jar over thinning hair, releasing the fibres
 2. Blend the fibres in with your fingers
 3. Repeat if necessary to get the perfect thickness and density.
 4. Optional: Waterproof with Fibre Locking Spray.

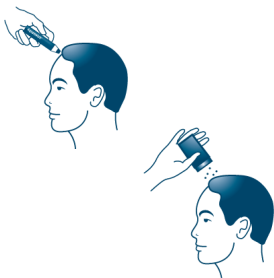

Keratin, [+/- CI 16035 (Red 40), CI 19140 (Yellow 5), CI 42090 (Blue 1)]

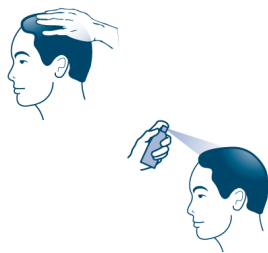

Combine Nanogen Conceal and Style products to get the expert look, thickening any area of thinning hair.

By combining Aquamatch with Nanofibres, not only do you get the perfect transformation, but you actually use less of each, making this a very cost-effective combination.

1. Apply Aquamatch directly onto the scalp to conceal scars and thinning hairlines or wide partings.
2. Then shake Nanofibres onto the hair and blend in with your fingertips for incredible hair density.
3. Finally lock Nanofibres & in place with Locking Mist Plus for secure and water resistant hold.
